Forecast Pro Unlimited edition

Package description

Forecast Pro Unlimited is a state-of-the-art forecasting system that is designed for large-scale forecasting jobs and collaborative forecasting. With **Forecast Pro Unlimited**, forecasting ten thousand SKU's is as easy as selecting a data file and clicking the forecast icon. Forecast Pro Unlimited uses the same proven methods found in Forecast Pro XE: exponential smoothing, Box-Jenkins, low volume models, simple methods (moving averages), curve fitting, event models and multiple level forecasts.

Forecast Pro Edition - Unlimited

| | |
|-----------------------------|-----------|
| Expert Selection | OK |
| Exponential Smoothing | OK |
| Seasonal Simplification | |
| Box-Jenkins | OK |
| Low volume models | OK |
| Simple Methods | OK |
| Curve fitting | OK |
| Dynamic Regression | |
| Event Models | OK |
| Multiple level forecasting | OK |
| Batch forecasting | unlimited |
| Command line operation | OK |
| Collaborative forecasting | OK |
| Multiple forecast overrides | OK |
| Commenting capability | OK |

Forecast Pro Unlimited allows you to forecast an unlimited number of items at a time.

Creating a final forecast is not always a one-person job—having colleagues review your forecasts and add their insight can often improve the forecasting process. Forecast Pro Unlimited Collaborator is designed to facilitate this [collaborative process in a cost-effective fashion.](#)

A comprehensive package

ForecastPro Unlimited edition includes an extended service package, so that you can go deep inside the process of developing your first forecasting model.
